

Well & Able offers a completed one-stop solution to pre-fabricated buildings globally

It attributes its success to continuous focus on innovation of new products and technology.

Since we began in 1983, W&A have been dedicating ourselves to a story of resilience and team work; we also geared ourselves as the ONLY one-stop solution of COMPLETE Prefabricated buildings around the world. The service ranges from Architectural design, Interior decoration, Light-weight Engineered Steel and ALC (Autoclaved Light-weight Concrete) Walling system production, Structure and Mechanical engineering, Logistic handling to all parts of the globe and also Installation/ Instructional implementation and On-time after-sales services etc.

W&A Holdings, corporate headquartered in Singapore and managed our W&A Manufacturing, Design and Distribution Centre in Shanghai, has more than 80 employees. In 1995, W&A began to produce our own exclusive W&A Steel Structure system. In last 20 years, W&A Production emphasis has gone through the transformation from not only the production of Engineered Steel Structure system to our Excellent Fire-rated (ALC)

Walling System but by today's standard a complete integrated Building System.

W&A is the National Pride level high-tech enterprise, and it attributes its success to continuous focus on innovation of new products and technology. It set up the R&D and Design Center since the day of its incorporation, and now it has more than exclusive 10 R&D design and technical engineers. Back up with advanced BIM system and leading structural design and R&D capability, W&A has evolved the all types of buildings - Primarily covering Residential, Commercial, Hospitality, Medical, Educational, and Industrial and also to various Island Projects around the world. Just this year in 2018, we have also completed an integrated Museum in Maldives and won the Singapore's TOP award for Best Construction and Materials Company. All of W&A products are in line with ISO9001 standard and have passed the certifications like CE, TUV-SUD, and PSB etc. Our W&A Corporation has set up affiliated

offices in Malaysia, Thailand, Australia, South Africa and has exported our wide range of W&A Buildings to over 25 countries and regions, we have also successfully completed over 400 projects around the world.

Well & Able Holdings won the Made in Singapore Award for Materials & Construction
